

Hygiene measurements during the AI.SUMMIT

As part of our measures to prevent or reduce the risk of infection with the Coronavirus, we ask all our event participants attending the face-to-face event to heed the following rules, without which we may not hold the AI.SUMMIT.

1. Invitation and participation management

- Invitation and ticket management for the AI.SUMMIT is done digitally.
- When purchasing a ticket, the first and last name as well as the e-mail address of the purchaser will be recorded by AI.HAMBURG. The participant data will be stored digitally in the participation management system of AI.HAMBURG.
- For contact data collection we will use the LUCA App on site. If participants do not want to/are not able to use this app, this data (complete contact details as well as time and period of the visit) will be recorded in writing.
- AI.HAMBURG is obliged to provide relevant participant data - upon request - to the health authorities.

2. Access model for the AI.SUMMIT

- Due to the Corona virus the AI.SUMMIT will be conducted as a so-called “2G plan” event. Only fully vaccinated or recovered persons will have access. Appropriate proof (proof of vaccination, proof of recovery, photo ID) will be checked upon entering the venue. Without proof of complete vaccination or recovery, unfortunately, participation in AI.SUMMIT is not possible, even if a ticket has been purchased. Please see our “Terms and Conditions” for further information.
- In order to reduce waiting times at the control, we ask for digital proof via app (e.g. via the [Corona Warn-App](#), [CovPass](#))
- An overview of the main provisions of the 2G access model can be found at the end of this document
- In addition to the proof of vaccination or proof of recovery, we ask all participants to either
 - a) present a negative corona test. This test result must not be older than 24 hours.or alternatively
 - b) do a Corona self-test at home. If you decide to do so please bring the signed self-declaration form you’ll find at the end of this document. Please do this test at least 24 hours before coming to AI.SUMMIT

3. Minimum distance to other persons

- The minimum distance of 1.5 meters applies when using the 2G plan to the access control (queue).
- The number of seats for consumption at tables is based on the current permit situation for our catering partners.
- The minimum distance between the audience and the stage is 2.5 meters.
- Podiums and production and technical areas may only be entered by authorized persons.

4. Mouth and nose covering

The following rules apply when using the 2G plan until passing the access control.

- Mouth-to-nose covering must be worn when entering the venue and may be removed at the site.
- The service staff of our catering partners wear mouth-nose protection during the entire event.
- Avoid direct hand contact and refrain from physical contact if possible.

5. Hand hygiene rules

- We ask our participants to disinfect their hands directly upon entering the location.
- AI.HAMBURG and the operators of our venues will ensure that sufficient disinfectants are available.
- Frequently touched surfaces as well as sanitary facilities are cleaned regularly by the venue operator.
- When coughing or sneezing, keep as clear a distance as possible and turn away from other persons.
- Keep the crook of your arm in front of your mouth and nose when coughing or sneezing.

6. Do not attend the AI.SUMMIT when you are ill

- We undertake to refuse participation in AI.SUMMIT to persons with typical symptoms.

7. Checkroom

- We provide a public checkroom during the event.

8. Further protective measures

- AI.HAMBURG publishes the hygiene measures on the website and by e-mail to the participants and communicates them in a clearly recognizable manner at the venue.
- The venue operator shall ensure that closed rooms are sufficiently ventilated.
- During rehearsals and the event, only persons directly required in the production area, stage, podium, etc. are permitted.

Overview 2G plan		
Required proof of access		
Required proof of access (in each case in conjunction with an official photo ID)		Proof of vaccination (the last vaccination must be 14 days ago)
		Proof of recovery
Maximum number of participants
